

## Events Calendar

What is an Event Calendar?

An Event Calendar is an online diary.

Event Calendars help you schedule staff and maintain bookings.

Why would you want one?

Using an internet base event calendar, you allow the office people to set the booking once, and then allow the field staff to view that booking where ever they are.

The event calendar can only be viewed by member only, which ensures privacy.

Call GeekSupport on 1300 788 209 for a demonstration today.
